

# Implementation Partners

Capiche is a web-based platform for public companies to take control of their private placements; reducing costs, ensuring compliance and simplifying administration.

## Connect

Help those in your network bring their private placements online by working with Capiche.

## Support

Support those in your network and the industries in which they operate by implementing legal technology.

## Earn

Earn implementation fees by working with Capiche. You assist with the sale and implementation.

### Streamlined private placement process

Securities laws and stock exchange policies are constantly changing and increasingly complex yet private placements continue to be completed using a paper-based manual process. As a result, significant time, expense and expertise are required to undertake and complete a private placement. Capiche provides issuers a secure web-based platform that brings the private placement process online; reducing costs, ensuring compliance and simplifying administration.

Issuers, investors and all other participants benefit from Capiche. The platform ensures that the private placement process is fully understood by all users and tailored to their circumstances. Everyone has full confidence that the private placement is effected in full compliance with securities laws and that confidential information remains confidential. More of the monies raised are available to the issuer for furthering corporate objectives; thereby increasing shareholder value.

### Improve client service and grow your revenue

Our Implementation partner program is ideal for legal service providers with public company clients. Work with us to implement the Capiche platform for your clients and earn implementation fees.

Implementation partners may use Capiche's marks and logos and have access to marketing materials. Implementation partners receive product training and demo the Capiche platform and make the sale with support from Capiche. Implementation partners also receive periodic updates on securities laws and stock exchange policies, facilitate use of the Capiche platform for their clients and assist Capiche with continuous improvement of the platform.

To participate in our Implementation partner program, contact us. If we determine you are qualified, we'll ask you to complete our implementation partner agreement and get you started!

---

**We're looking for partners who share our vision and passion for simplifying the capital raising process.**

**Contact us and start implementing Capiche.**
