

Despite the complexity of raising capital, private placements continue to be completed using a manual, paper-based process, which is inefficient and risks noncompliance

who we are

Capiche is a web-based platform that simplifies the capital raising process while ensuring compliance

what we do

Capiche quickly and efficiently generates all required documentation, coordinates interactions with investors and those referring investors to the financing and guides all users through the process

who we are

"With Capiche, the investor only gets the forms that pertain to him or her. Any term that could be confusing can be clicked to access a definition, and one written so that it's easy to understand. The whole process is just way more accessible" Gwen Preston, The Maven Letter

"I have no hesitation in recommending the Capiche platform to others who wish to save time and money on their next private placement financing" Customer, Corporate Secretary

REDUCE COSTS

Greater portion of proceeds are available for creating shareholder value

SIMPLIFY ADMINISTRATION

Documentation is automatically generated and investors easily complete subscriptions online, which are tracked in real-time

UNTAPPED POOL OF INVESTORS

Access an untapped pool of investors by taking subscriptions for smaller dollar amounts from a greater number of investors using prospectus exemptions that previously have not been cost-effective

INCREASE EFFICIENCY & SPEED

"Go live" with offerings quickly and hit tight financing "windows"

ENSURE COMPLIANCE

Continuously updated to comply with applicable securities laws and stock exchange policies
